

# A day in your life

Buy a new song online to **fuel** your morning workout, and you've already begun

a **digital day** — a day filled with **new options** for communicating with others,

**getting around** safely and **staying in touch** while on the go. Whether the

day takes you to **school** or the **supermarket checkout counter** or a makeshift

**office,** you'll find digital solutions that keep you **organized,** and

**many things** will simply take care of themselves. You'll **document**

some of the day's highlights, and that evening you may **bask in the glow**

of a classic film or **chat with others** half a world away. Digital solutions: A big part

of **enriching** every day. And **TI innovations** are at the core of a huge assortment of the high-

tech products **you depend upon.**

## Did you know?

TI technology is also a key component in advanced medical devices such as digital hearing aids, ultrasound scanners and portable heart monitors.
