	<b>Materials</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Environment</a>
G4-EN2	Percentage of materials used that are recycled input materials.	The majority of purchased materials required to manufacture our products are chemicals. Although most chemicals used in semiconductor processing must be ultra-pure, we collect and reuse oxide slurry at some of our sites. Where feasible, we also collect waste acids from our processes for reuse in abatement equipment. During construction projects, we give preference to materials containing recycled products, although we do not currently track the total amount of recycled material purchased for these projects.

DMA and indicators	Specific standard disclosures	Page/response/omission
	<b>Products and services</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Products</a>
G4-EN27	Extent of impact mitigation of environmental impacts of products and services.	We adhere to internationally recognized standards and pay close attention to understanding and managing the environmental and social impacts of our products, including <a href="#">product end-of-life</a> . We hold semiconductor manufacturing suppliers accountable for the same environmental and social considerations through our <a href="#">CETRAQ</a> process. TI Education Technology suppliers adhere to similar policies.
G4-EN28	Percentage of products sold and their packaging materials that are reclaimed, by category.	Currently, we are unable to determine the percentage of products reclaimed by customers or end users. TI Education Technology participates in various <a href="#">recycle programs</a> . Although TI cannot control how customers handle the semiconductors they place in their products, nor their product's end-of-life issues, the company provides detailed information about the substances used in its components so that customers can make informed decisions about <a href="#">end-of-life disposal</a> .
	<b>Compliance</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Environment</a>
G4-EN29	Monetary value of significant fines and total number of nonmonetary sanctions for noncompliance with environmental laws and regulations.	TI paid \$39,000 in 2016 to the California Water Board for violations of its water discharge permit that occurred from 2010 to 2015. Breaks and cracks in its Santa Clara site groundwater pump and treatment system resulted in the discharge of untreated water to the ground, in violation of the permit. For each release, TI took measures to immediately stop leaks and perform corrective actions to repair the system.
	<b>Overall</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Environment</a>

G4-DMA	Disclosure on management approach.	<a href="#">Environment</a>
G4-EN34	Number of grievances about environmental impacts filed, addressed and resolved through formal grievance mechanisms.	In 2016, TI did not receive any grievances about environmental impacts, nor were there any open grievances awaiting a response. If a grievance arises, TI has several means of receiving environmentally related questions, concerns or grievances from both internal (employee) and external stakeholders. We route these questions to TI environmental experts to respond.

At TI, both full-time U.S.-based employees and employees who work an alternative work schedule (20 to 39 hours per week) are eligible for all benefits, including medical, prescription, dental, vision, employee assistance and income protection. Temporary or part-time employees on alternative work schedules less than 20 hours per week are not eligible for benefits.
G4-LA3	Return to work and retention rates after parental leave, by gender.	We currently do not track return-to-work and retention rates after parental leave.
	<b>Labor/management relations</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Employees</a>
G4-LA4	Minimum notice periods regarding operational changes, including whether these are specified in collective agreements.	In the U.S., TI provides a minimum of one week's notice regarding shift changes and provides at least 60 days' notice (or pay in lieu of notice) for reductions in force. Outside the U.S., TI adheres to local labor laws.
	<b>Occupational health and safety</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Health, Safety</a>
G4-LA5	Percentage of total workforce represented in formal joint management-worker health and safety committees that help monitor and advise on occupational health and safety programs.	TI has formal Environmental, Safety and Health (ESH) Committees at all of our manufacturing sites. These committees include manufacturing managers, ESH specialists and employee representatives.
G4-LA6	Type of injury and rates of injury, occupational diseases, lost days, absenteeism and total number of work-related fatalities, by region and by gender.	Recordable injury cases and lost/restricted day cases rates are available in the <a href="#">performance summary</a> . We track employee absenteeism due to occupational injuries and illnesses based on number of days lost. Our absentee rate was 1.7. We had no work-related fatalities.
G4-LA7	Workers with high incidence or high risk of diseases related to their occupation.	TI does not have workers involved in occupational activities with a high incidence or high risk of specific diseases. We have very strong industrial hygiene programs that minimize chemical exposure in the workplace and thus avoid adversely affecting worker health.
	<b>Training and education</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Employees, Development</a>
G4-LA9	Average hours of training per year per employee, by gender and by employee category.	<a href="#">Training average</a>

DMA and indicators	Specific standard disclosures	Page/response/omission
	<b>Training and education (continued)</b>	
G4-LA11	Percentage of employees receiving regular performance and career development reviews, by gender and by employee category.	TI does not track the number of employees receiving performance reviews. In many of our organizations, we've seen greater success in employee engagement, goal-setting and alignment with company priorities by instead encouraging better conversations between supervisors and employees and by providing access to online resources to guide these conversations. We assess employees' understanding of their own goals and manager expectations throughout the year.
	<b>Diversity and equal opportunity</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Employee, Diversity</a>
G4-LA12	Composition of governance bodies and breakdown of employees per employee category according to gender, age group, minority group membership and other indicators of diversity.	<a href="#">Governance results</a>
	<b>Equal remuneration for women and men</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Employee, Pay and benefits</a>
G4-LA13	Ratio of basic salary and remuneration of women to men, by employee category and by significant locations of operation.	TI compensates each employee based on legitimate work-related factors without regard to gender, race, ethnicity or other protected characteristics. Because pay ratios for broad categories of employees fail to consider legitimate and individualized factors such as the particular work performed, level of responsibility, job performance, skills, qualifications, education and experience, TI believes that pay ratio data is not a reliable indicator of pay equity.
	<b>Supplier assessment for labor practices</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Supply chain, Responsible sourcing</a>
G4-LA15	Significant actual and potential negative impacts for labor practices in the supply chain and actions taken.	After conducting environmental and social responsibility assessments of our supply chain, we found no significant negative labor practices.
	<b>Labor practices grievance mechanisms</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Employees</a>
G4-LA16	Number of grievances about labor practices filed, addressed and resolved through formal grievance mechanisms.	Although compiled for internal review and action, we do not currently report labor practice allegations publicly, since we consider such information confidential. We work to successfully resolve any inquiries related to labor practices.
	<b>Employment tenure</b>	
TI-LA17*	Employee tenure at company by average years of service.	Less than 10 years: 48.9% 10-20 years: 26.0% More than 20 years: 25.0%

In 2016, TI announced that it is taking steps to begin the closure of the GFAB manufacturing facility in Greenock, Scotland, to transfer work to more cost-effective plants in Germany and the U.S. We expect to complete this process by the end of 2018. If we are unable to find an appropriate buyer, as announced in 2016, about 365 TI jobs will be affected through elimination or transfers.
	<b>Anti-corruption</b>	
G4-DMA	Disclosure on management approach.	<a href="#">Ethics</a>
G4-SO3	Total number and percentage of operations assessed for risks related to corruption and the significant risks identified.	We assess 100 percent of our worldwide manufacturing operations for risks related to corruption.

We also refreshed our anti-bribery and records falsification policies in 2016 and continue to promote awareness about this topic through regular internal news articles.
G4-SO5	Confirmed incidents of corruption and actions taken.	Although recorded for internal review and action, we do not currently report corruption incidents publicly, since we consider such information confidential. We work to successfully resolve any incidents related to corruption.
	<b>Public policy</b>	
G4-DMA	Disclosure on management approach.	See <a href="#">Governance, Priorities</a> and <a href="#">Corporate political activities</a> . The vice president of Worldwide Government Relations provides a written quarterly update of government relations activities and progress to TI's Strategy Leadership Team and board of directors, and gives a formal presentation annually to the board's Governance and Stockholders Relations Committee.
