Corporate Report Card
Year 2001***

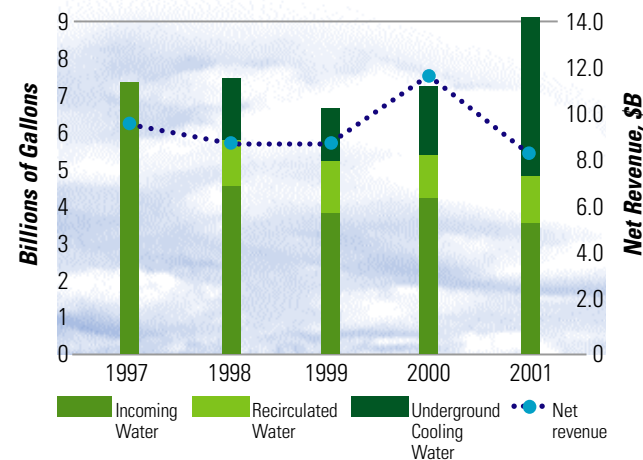

Corporate Report Card

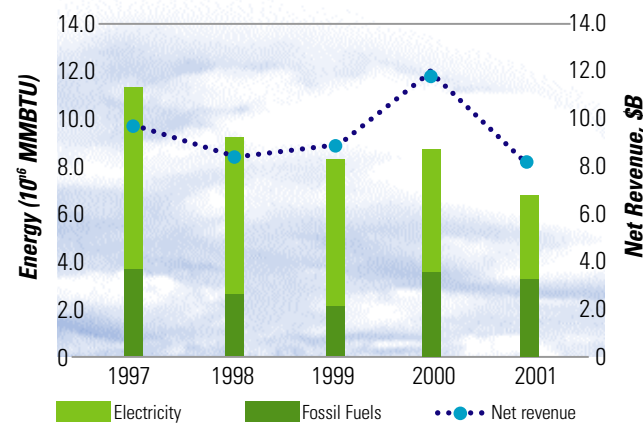

During recent years, numerous divestitures and acquisitions have changed the face of our business and of our ESH performance metrics. As our company focuses on the digital signal processing, analog and mixed signal solutions markets, we have greatly increased our manufacturing operations, particularly in the United States.

Total TI Water Usage

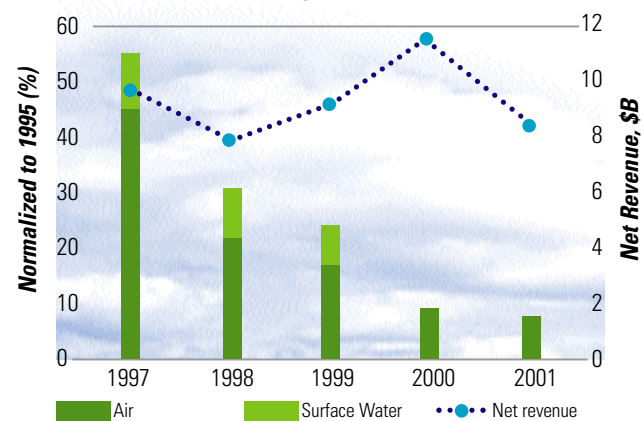

Total Energy Use

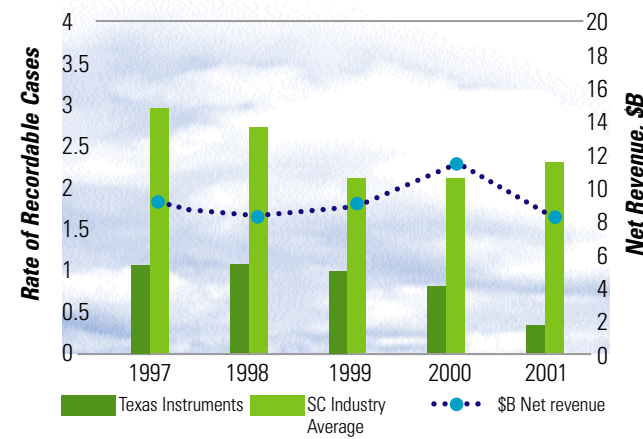

Permitted Releases to Air, Land, & Water

EPA TRI Chemicals (US Only)

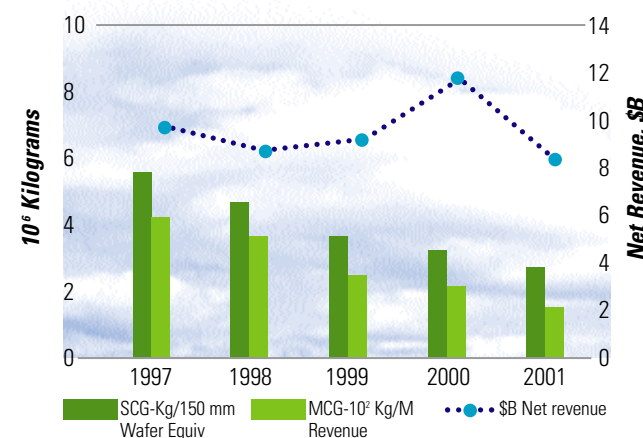

Note: Land Releases = 0 for all years

Recordable Cases

Worldwide Hazardous Waste

Non-Hazardous Recycling Rate

Lost/Restricted Day Cases

These dynamic operational changes make it difficult to compare our performance from year to year, but we believe there is value in tracking our trends. You'll see we have provided five years of data throughout this report, a reflection of our continued innovative efforts to operate safely and sustainably at all of our facilities worldwide.
