Net labels and power ports are local to each sheet.
Texas Instruments and/or its licensor disclaim any warranty that this design will meet the specifications, will be suitable for your application or fit for any particular purpose, or will operate in an implementation. You should complete validation and test your design implementation to confirm the system functionality for your application.
Texas Instruments and/or its licensors do not warrant that the design is production worthy. You should completely validate and test your design implementation to confirm the system functionality for your application.
Engineer: Rama Kambham & Tobias Reingen

These industrial designs or designs derived from them are neither warranted as to their accuracy or completeness as to the satisfaction of any individual component variation. Texas Instruments and/or its licensors do not warrant that this design will meet the specifications, will be suitable for your application or fit for any particular purpose, or will operate in an implementation. Texas Instruments and/or its licensors do not warrant that the design is production worthy. You should completely validate and test your design implementation to confirm the system functionality for your application.
Texas Instruments and/or its licensors do not warrant that the design is production worthy. You should completely validate and test your design implementation to confirm the system functionality for your application.
Texas Instruments and/or its licensors do not warrant the design is production worthy. You should completely validate and test your design implementation to confirm the system functionality for your application.

Texas Instruments and/or its licensors do not warrant that the design will meet the specifications, will be suitable for your application or fit for any particular purpose, or will operate in an implementation. Texas Instruments and/or its licensors do not warrant that this design will meet the specifications, will be suitable for your application or fit for any particular purpose, or will operate in an implementation. Texas Instruments and/or its licensors do not warrant the accuracy or completeness of this specification or any information contained therein. Texas Instruments and/or its licensors do not warrant that this design will meet the specifications, will be suitable for your application or fit for any particular purpose, or will operate in an implementation. Texas Instruments and/or its licensors do not warrant that the design is production worthy. You should completely validate and test your design implementation to confirm the system functionality for your application.
