AM438x Evaluation Module Quick Start Guide

Manufactured by Mistral Solutions Pvt. LTD. • www.mistralsolutions.com

Welcome to the AM438x Electronic Point of Sale (EPOS) Evaluation Module (EVM) Quick Start Guide. This guide is designed to help you through the initial setup of the EVM. This EVM allows you to experience the advanced security features of the AM438x Cortex®-A9 processor and peripherals within a Linux® plus TI-RTOS environment. The AM438x EVM contains the following:

Hardware

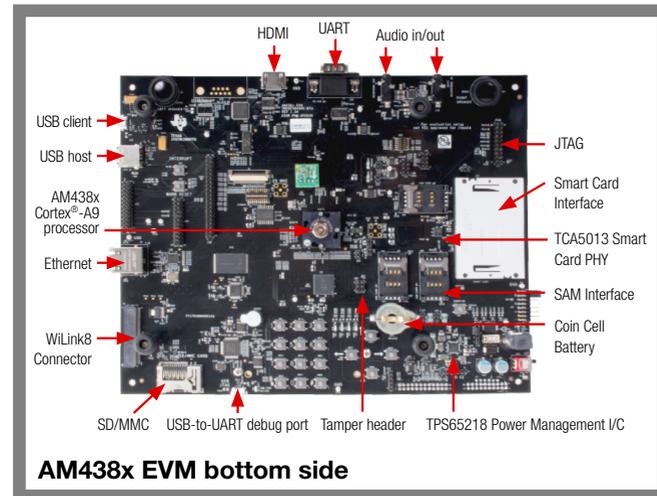

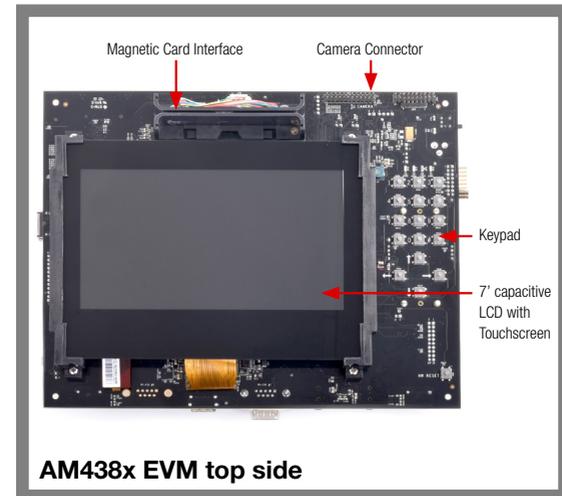

- Sitara™ AM438x Cortex-A9 processor
- TPS65218 power management I/C
- 7" capacitive touch LCD
- 1GB LPDDR2
- Camera module
- On board NAND and QSPI-NOR flash
- Tamper daughter card
- Magnetic card and smart card readers

Printed Documents

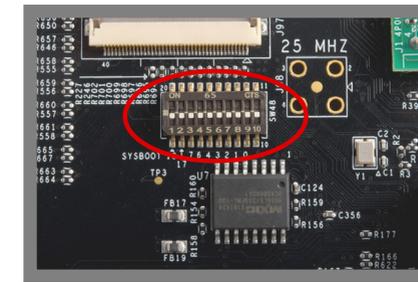

- AM438x EVM Quick Start Guide (this document)

Miscellaneous

- Blank 16GB µSD card with adapter
- UART serial cable
- Ethernet cable
- Micro USB 2.0 cable

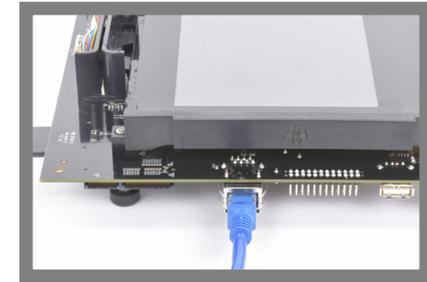

Default setup (OS boot from micro SD card)

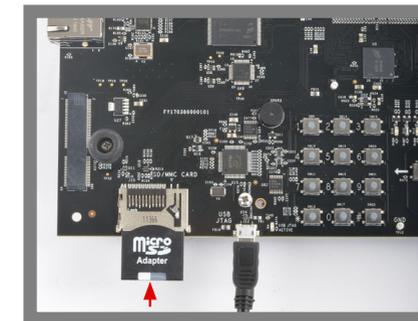

1 Verify all the SYSBOOT switches are set as shown (all OFF). The switches are on the back of the EVM.

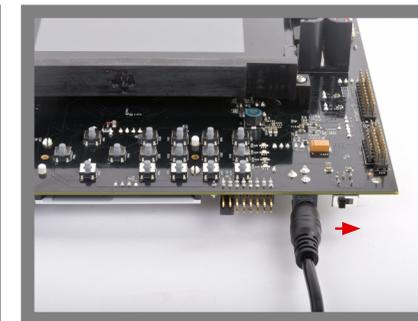

2 For Linux development, connect the supplied USB cable to the USB connector as shown and the other end to a PC. See Section "Linux Software Development Kit."

3 For Linux development, connect the supplied Ethernet cable to the RJ-45 jack on the EVM and the other end to an Internet-enabled router or Ethernet switch. See Section "Linux Software Development Kit."

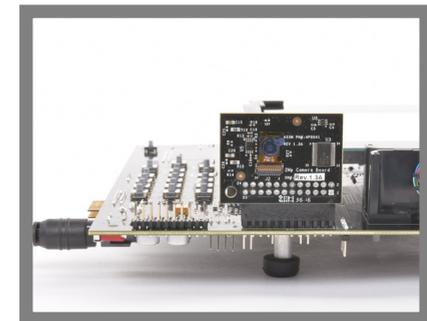

4 Prepare a Linux µSD card after downloading the software from www.ti.com/mysecursoftware and following the instructions in the Processor SDK-EPOS Quick Start Guide. Insert the µSD card into the AM438x EVM as shown.

5 Connect a power supply (not included) to the power jack on the EVM as shown. Turn on the EVM by sliding power switch SW3 to the right position as shown.

Note: When powering the AM438x EVM, use a power supply with output voltage of +5VDC, positive center pin, and output current max 3.0 Amp, as well as the applicable regional product regulatory/safety certification requirements applicable to your region.

6 Plug in the camera board (included) as shown. This is only necessary if you plan to run camera application demos.

7 You are now ready to explore the Linux® demos which include various example applications. Click on any icon to start the demo and click "exit" (if available) to quit the demo.

8 To prepare your workstation for software development, power off the kit, remove the micro SD card; insert it into the included SD card adapter (if applicable); and insert it into your PC. If your PC does not include an SD slot, USB SD card adapters are readily available. Follow the instructions below.

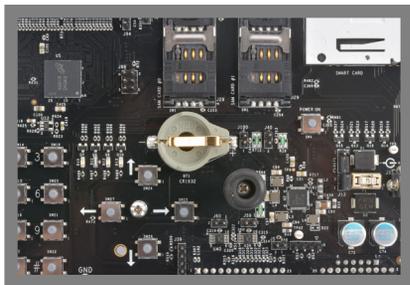

Linux Software Development Kit

Prepare a μ SD card after downloading the software from www.ti.com/mysecuresoftware. From a Linux host PC, insert the Linux μ SD card into the PC, and from the START HERE folder, run setup.htm. If you need help on setting up a Linux Host PC, please visit www.ti.com/startyourlinux.

Connect the supplied USB cable to the micro USB connector on the AM438x EVM and plug the other end to your PC (see step 2 above). Connect the supplied Ethernet cable to the RJ-45 jack on the AM438x EVM. Connect the other end of the cable to an Internet-enabled router or Ethernet switch (see step 3 above).

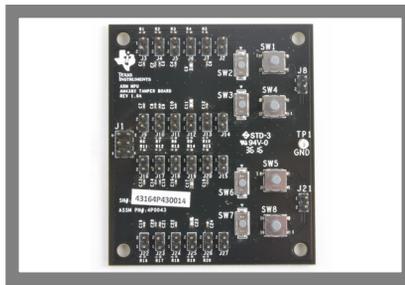

Advanced functionality

The following steps are necessary for testing advanced functionality. For details on how to exercise this functionality refer to the “AM438x EVM User Guide” and “Processor SDK-EPOS User Guide” downloadable from www.ti.com/mysecuresoftware.

- 1 This EVM comes with a coin battery holder. A coin battery is not necessary for normal operation of the EVM. A coin battery (not included) can be inserted for testing ultra-low power (tamper-only) mode.

** Note: This EVM is designed for optional use with a removable CR1632 UL recognized lithium battery (not supplied). Always use a CR1632VP Energizer 3V Lithium coin cell battery (<http://data.energizer.com/PDFs/cr1632.pdf>) or similar CR1632 UL recognized battery with Nominal Voltage 3.0 Volts, Capacity 130mAh, and Discharge Rate 190 μ A.*

- 2 This EVM comes with a tamper daughter card which can be used to exercise tamper functionality of the AM438x processor. It needs to be wired to the AM438x EVM. Refer to the “AM438x EVM User Guide.”

In accordance with the requirements of Article 33(1) of the European REACH regulation, this is to inform you that one of the components in this EVM contains Lead di(acetate) CAS #6080-56-4 /EINICS 206-104-4 at <0.3%. For safety and health related information, refer to the [safety data sheet](#).

IMPORTANT NOTICE FOR TI DESIGN INFORMATION AND RESOURCES

Texas Instruments Incorporated ("TI") technical, application or other design advice, services or information, including, but not limited to, reference designs and materials relating to evaluation modules, (collectively, "TI Resources") are intended to assist designers who are developing applications that incorporate TI products; by downloading, accessing or using any particular TI Resource in any way, you (individually or, if you are acting on behalf of a company, your company) agree to use it solely for this purpose and subject to the terms of this Notice.

TI's provision of TI Resources does not expand or otherwise alter TI's applicable published warranties or warranty disclaimers for TI products, and no additional obligations or liabilities arise from TI providing such TI Resources. TI reserves the right to make corrections, enhancements, improvements and other changes to its TI Resources.

You understand and agree that you remain responsible for using your independent analysis, evaluation and judgment in designing your applications and that you have full and exclusive responsibility to assure the safety of your applications and compliance of your applications (and of all TI products used in or for your applications) with all applicable regulations, laws and other applicable requirements. You represent that, with respect to your applications, you have all the necessary expertise to create and implement safeguards that (1) anticipate dangerous consequences of failures, (2) monitor failures and their consequences, and (3) lessen the likelihood of failures that might cause harm and take appropriate actions. You agree that prior to using or distributing any applications that include TI products, you will thoroughly test such applications and the functionality of such TI products as used in such applications. TI has not conducted any testing other than that specifically described in the published documentation for a particular TI Resource.

You are authorized to use, copy and modify any individual TI Resource only in connection with the development of applications that include the TI product(s) identified in such TI Resource. NO OTHER LICENSE, EXPRESS OR IMPLIED, BY ESTOPPEL OR OTHERWISE TO ANY OTHER TI INTELLECTUAL PROPERTY RIGHT, AND NO LICENSE TO ANY TECHNOLOGY OR INTELLECTUAL PROPERTY RIGHT OF TI OR ANY THIRD PARTY IS GRANTED HEREIN, including but not limited to any patent right, copyright, mask work right, or other intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information regarding or referencing third-party products or services does not constitute a license to use such products or services, or a warranty or endorsement thereof. Use of TI Resources may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

TI RESOURCES ARE PROVIDED "AS IS" AND WITH ALL FAULTS. TI DISCLAIMS ALL OTHER WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED, REGARDING TI RESOURCES OR USE THEREOF, INCLUDING BUT NOT LIMITED TO ACCURACY OR COMPLETENESS, TITLE, ANY EPIDEMIC FAILURE WARRANTY AND ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT OF ANY THIRD PARTY INTELLECTUAL PROPERTY RIGHTS.

TI SHALL NOT BE LIABLE FOR AND SHALL NOT DEFEND OR INDEMNIFY YOU AGAINST ANY CLAIM, INCLUDING BUT NOT LIMITED TO ANY INFRINGEMENT CLAIM THAT RELATES TO OR IS BASED ON ANY COMBINATION OF PRODUCTS EVEN IF DESCRIBED IN TI RESOURCES OR OTHERWISE. IN NO EVENT SHALL TI BE LIABLE FOR ANY ACTUAL, DIRECT, SPECIAL, COLLATERAL, INDIRECT, PUNITIVE, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES IN CONNECTION WITH OR ARISING OUT OF TI RESOURCES OR USE THEREOF, AND REGARDLESS OF WHETHER TI HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

You agree to fully indemnify TI and its representatives against any damages, costs, losses, and/or liabilities arising out of your non-compliance with the terms and provisions of this Notice.

This Notice applies to TI Resources. Additional terms apply to the use and purchase of certain types of materials, TI products and services. These include; without limitation, TI's standard terms for semiconductor products (<http://www.ti.com/sc/docs/stdterms.htm>), [evaluation modules](#), and [samples](http://www.ti.com/sc/docs/sampterm.htm) (<http://www.ti.com/sc/docs/sampterm.htm>).
