EC Declaration of Conformity (DoC)

We

Texas Instruments Incorporated
12500 TI Boulevard
Dallas, Texas 75243 USA

Declare that the DoC is issued under our sole responsibility and belongs to the following products:

<table>
<thead>
<tr>
<th>Product Type:</th>
<th>Wireless Network Equipment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Model Number:</td>
<td>CC3220S-LAUNCHXL and CC3220SF-LAUNCHXL</td>
</tr>
</tbody>
</table>

The object of the declaration described above is in conformity with the relevant Union harmonization legislation:

The following harmonized standards and technical specifications have been applied:

<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>EN 62311:2008</td>
<td>Assessment of electronic and electrical equipment related to human exposure restrictions for electromagnetic fields (0 Hz - 300 GHz)</td>
</tr>
<tr>
<td>EN 300 328 V1.9.1</td>
<td>Electromagnetic compatibility and Radio spectrum Matters (ERM); Wideband transmission systems; Data transmission equipment operating in the 2.4 GHz ISM band and using wide band modulation techniques; Harmonized EN covering the essential requirements of article 3.2 of the R&amp;TTE Directive</td>
</tr>
<tr>
<td>EN 301 489-1 V1.9.2</td>
<td>Electromagnetic compatibility and Radio spectrum Matters (ERM); ElectroMagnetic Compatibility (EMC) standard for radio equipment and services; Part 1: Common technical requirements</td>
</tr>
<tr>
<td>EN 301 489-17 V2.2.1</td>
<td>Electromagnetic compatibility and Radio spectrum Matters (ERM); ElectroMagnetic Compatibility (EMC) standard for radio equipment; Part 17: Specific conditions for Broadband Data Transmission Systems</td>
</tr>
<tr>
<td>EN 55032:2012 + AC:2013</td>
<td>Electromagnetic compatibility of multimedia equipment - Emission requirements</td>
</tr>
<tr>
<td>EN 55024:2010</td>
<td>Information technology equipment - Immunity characteristics - Limits and methods of measurement</td>
</tr>
<tr>
<td>EN 61000-3-3:2013</td>
<td>Electromagnetic compatibility (EMC) - Part 3-3: Limits - Limitation of voltage changes, voltage fluctuations and flicker in public low-voltage supply systems, for equipment with rated current &lt;= 16 A per phase and not subject to conditional connection</td>
</tr>
</tbody>
</table>
In addition to the above directives, the products covered under the declaration of conformity also comply with the **Restriction of the use of certain hazardous substances in electrical and electronic equipment Directive 2011/65/EU** of 8 June 2011.

per the provisions of the following standard.

| EN 50581:2012 | Technical documentation for the assessment of electrical and electronic products with respect to the restriction of hazardous substances |

**Notified Body:**

<table>
<thead>
<tr>
<th>Notified Body:</th>
<th>UL Verification Services Inc.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Notified Body Number</td>
<td>0984</td>
</tr>
<tr>
<td>Reference number of the certificate of notified body</td>
<td>AN16C10898-1</td>
</tr>
</tbody>
</table>

**Technical Compliance File Held by:**

Texas Instruments Incorporated
12500 TI Boulevard
Dallas, Texas 75243 USA

**Signed for and on behalf of Texas Instruments Incorporated**

<table>
<thead>
<tr>
<th>Name:</th>
<th>Jim Bender, Director WW SC Product Regulatory Compliance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Address:</td>
<td>Post Office Box 655303, Dallas, Texas 752265</td>
</tr>
</tbody>
</table>

IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, enhancements, improvements and other changes to its semiconductor products and services per JESD46, latest issue, and to discontinue any product or service per JESD48, latest issue. Buyers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All semiconductor products (also referred to herein as “components”) are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its components to the specifications applicable at the time of sale, in accordance with the warranty in TI's terms and conditions of sale of semiconductor products. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by applicable law, testing of all parameters of each component is not necessarily performed.

TI assumes no liability for applications assistance or the design of Buyers' products. Buyers are responsible for their products and applications using TI components. To minimize the risks associated with Buyers' products and applications, Buyers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any patent right, copyright, mask work right, or other intellectual property right relating to any combination, machine, or process in which TI components or services are used. Information published by TI regarding third-party products or services does not constitute a license to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of significant portions of TI information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. TI is not responsible or liable for such altered documentation. Information of third parties may be subject to additional restrictions.

Resale of TI components or services with statements different from or beyond the parameters stated by TI for that component or service voids all express and any implied warranties for the associated TI component or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.

No TI components are authorized for use in FDA Class III (or similar life-critical medical equipment) unless authorized officers of the parties have executed a special agreement specifically governing such use.

Buyer acknowledges and agrees that it is solely responsible for compliance with all legal, regulatory and safety-related requirements concerning its products, and any use of TI components in its applications, notwithstanding any applications-related information or support that may be provided by TI. Buyer represents and agrees that it has all the necessary expertise to create and implement safeguards which anticipate dangerous consequences of failures, monitor failures and their consequences, lessen the likelihood of failures that might cause harm and take appropriate remedial actions. Buyer will fully indemnify TI and its representatives against any damages arising out of the use of any TI components in safety-critical applications.

In some cases, TI components may be promoted specifically to facilitate safety-related applications. With such components, TI's goal is to help enable customers to design and create their own end-product solutions that meet applicable functional safety standards and requirements. Nonetheless, such components are subject to these terms.

No TI components are authorized for use in FDA Class III (or similar life-critical medical equipment) unless authorized officers of the parties have executed a special agreement specifically governing such use.

Only those TI components which TI has specifically designated as military grade or “enhanced plastic” are designed and intended for use in military/aerospace applications or environments. Buyer acknowledges and agrees that any military or aerospace use of TI components which have not been so designated is solely at the Buyer's risk, and that Buyer is solely responsible for compliance with all legal and regulatory requirements in connection with such use.

TI has specifically designated certain components as meeting ISO/TS16949 requirements, mainly for automotive use. In any case of use of non-designated products, TI will not be responsible for any failure to meet ISO/TS16949.
