# AC701 Evaluation Kit Power Tree - 2

Device Type	Reference Designator	Description	Power Rail Net Name	Power Rail Voltage	Schematic Page
UCD90120A (4 Rails)	U8	PMBus Controller - PMBus Addr = 101			39
LMZ22010TZ	U49	10A 0.8V - 6V Adj. Switching Regulator	VCCINT	1.00V	40
TPS84621RUQ	U53	6A 0.6V - 5.5V Adj. Switching Regulator	VCCAUX	1.80V	41
TPS84320RUQ	U54	3A 0.6V - 5.5V Adj. Switching Regulator	VCCBRAM	1.00V	42
TPS84621RUQ	U55	6A 0.6V - 5.5V Adj. Switching Regulator	FPGA_1V5	1.50V	43
UCD90120A (5 Rails)	U9	PMBus Controller - PMBus Addr = 102			45
TPS84621RUQ	U56	6A 0.6V - 5.5V Adj. Switching Regulator	VCCO_VADJ	2.50V	46
TPS84320RUQ	U57	3A 0.6V - 5.5V Adj. Switching Regulator	VCC1V8/ FPGA_1V8	1.80V	47
TPS84621RUQ	U58	6A 0.6V - 5.5V Adj. Switching Regulator	VCC3V3/ FPGA_3V3	3.30V	48
TPS84320RUQ	U59	3A 0.6V - 5.5V Adj. Switching Regulator	MGTAVCC	1.00V	49
TPS84320RUQ	U60	3A 0.6V - 5.5V Adj. Switching Regulator	MGTAVTT	1.20V	50
LMZ12002	U46	2A 0.8V - 6V Adj. Linear Regulator	VCC5V0	5.00V	34
TL1963ADCQR	U62	1.5A 1.21V - 5V Adj. LDO Linear Regulator	VCC2V5	2.50V	48
TPS51200DR	U37	3A Source-Sink DDR Termination Regulator	VTTDDR	0.75V	44
TPS51200DR	U36	3A Source-Sink DDR Termination Regulator	DDR3_VTERM_ R_0V75	0.75V	44
TPS79433DCQ	U61	0.25A 1.2V - 5.5V Adj. LDO Linear Regulator	V33D_CTL1	3.30V	39
TPS79433DCQ	U63	0.25A 1.2V - 5.5V Adj. LDO Linear Regulator	V33D_CTL2	3.30V	45
ADP123	U10	0.3A 0.8V - 5V Adj. Linear Regulator	XADC_VCC	1.85V	29
REF3012	U35	50uA Fixed 1.25V Voltage Reference	XADC_VREF	1.25V	29

## IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, enhancements, improvements and other changes to its semiconductor products and services per JESD46, latest issue, and to discontinue any product or service per JESD48, latest issue. Buyers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All semiconductor products (also referred to herein as "components") are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its components to the specifications applicable at the time of sale, in accordance with the warranty in TI's terms and conditions of sale of semiconductor products. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by applicable law, testing of all parameters of each component is not necessarily performed.

TI assumes no liability for applications assistance or the design of Buyers' products. Buyers are responsible for their products and applications using TI components. To minimize the risks associated with Buyers' products and applications, Buyers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any patent right, copyright, mask work right, or other intellectual property right relating to any combination, machine, or process in which TI components or services are used. Information published by TI regarding third-party products or services does not constitute a license to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of significant portions of TI information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. TI is not responsible or liable for such altered documentation. Information of third parties may be subject to additional restrictions.

Resale of TI components or services with statements different from or beyond the parameters stated by TI for that component or service voids all express and any implied warranties for the associated TI component or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.

Buyer acknowledges and agrees that it is solely responsible for compliance with all legal, regulatory and safety-related requirements concerning its products, and any use of TI components in its applications, notwithstanding any applications-related information or support that may be provided by TI. Buyer represents and agrees that it has all the necessary expertise to create and implement safeguards which anticipate dangerous consequences of failures, monitor failures and their consequences, lessen the likelihood of failures that might cause harm and take appropriate remedial actions. Buyer will fully indemnify TI and its representatives against any damages arising out of the use of any TI components in safety-critical applications.

In some cases, TI components may be promoted specifically to facilitate safety-related applications. With such components, TI's goal is to help enable customers to design and create their own end-product solutions that meet applicable functional safety standards and requirements. Nonetheless, such components are subject to these terms.

No TI components are authorized for use in FDA Class III (or similar life-critical medical equipment) unless authorized officers of the parties have executed a special agreement specifically governing such use.

Only those TI components which TI has specifically designated as military grade or "enhanced plastic" are designed and intended for use in military/aerospace applications or environments. Buyer acknowledges and agrees that any military or aerospace use of TI components which have **not** been so designated is solely at the Buyer's risk, and that Buyer is solely responsible for compliance with all legal and regulatory requirements in connection with such use.

TI has specifically designated certain components as meeting ISO/TS16949 requirements, mainly for automotive use. In any case of use of non-designated products, TI will not be responsible for any failure to meet ISO/TS16949.

### Products

Audio	<a href="http://www.ti.com/audio">www.ti.com/audio</a>
Amplifiers	<a href="http://amplifier.ti.com">amplifier.ti.com</a>
Data Converters	<a href="http://dataconverter.ti.com">dataconverter.ti.com</a>
DLP® Products	<a href="http://www.dlp.com">www.dlp.com</a>
DSP	<a href="http://dsp.ti.com">dsp.ti.com</a>
Clocks and Timers	<a href="http://www.ti.com/clocks">www.ti.com/clocks</a>
Interface	<a href="http://interface.ti.com">interface.ti.com</a>
Logic	<a href="http://logic.ti.com">logic.ti.com</a>
