

## MP3 Decoder (v1.15) on C64x+

### FEATURES

- eXpressDSP Digital Media (XDM) Interface compliant
- ISO/IEC 11172-3 Layer 1, Layer 2, and Layer 3 compliant streams supported.
- Variable Bit Rate (VBR) and Constant Bit Rate (CBR) modes supported. The VBR encoding provides a higher overall sound quality with smaller file size
- Bit rates of 32 to 448 kbps for Layer 1, 32 to 384 kbps for Layer 2, and 8 to 320 kbps for Layer 3 supported.
- Mono, stereo, and dual channel input streams supported.
- Outputs 16-bit raw Pulse Code Modulation (PCM) samples. If two channels of audio data are produced, the output can be either in interleaved or block format.
- Layer 1 and Layer 2 decoder is compliant only with ISO/IEC 11172-3 (MPEG1 audio) standard.
- Layer 3 decoder is compliant with the following standards:
  - ISO/IEC 11172-3 (MPEG 1) (48 KHz, 44.1 KHz, and 32 KHz)
  - ISO/IEC 13818-3 (MPEG 2) (24 KHz, 22.05 KHz, and 16 KHz)
  - MPEG 2.5 extension (12 KHz, 11.025 KHz, and 8 KHz) sampling rates
- Does not support free format streams.
- Validated on DM648 EVM with code composer studio version 3.2.37.12 and code generation tools version 6.0.8.
- This codec is supported on any C64x+ based device

### DESCRIPTION

MP3 is one of the most popular audio compression standards across wide spectrum of application ranging from portable player, cell phones, music systems, internet, and so forth.

PRODUCT PREVIEW

Please be aware that an important notice concerning availability, standard warranty, and use in critical applications of Texas Instruments semiconductor products and disclaimers thereto appears at the end of this data sheet.

## Performance Summary

**Table 1. Configuration Table**

CONFIGURATION	ID
Layer1, Layer2, Layer3 Decoder	MP3_DEC_001

**Table 2. Cycles Information - Profiled on DM648 EVM with Code Generation Tools Version 6.0.8**

CONFIGURATION ID	PERFORMANCE STATISTICS (MEGA CYCLES PER SECOND) <sup>(1)</sup>		
	TEST DESCRIPTION	AVERAGE	PEAK
MP3_DEC_001	fl11.mp3	14.27	15.52
	fl2.mp3	15.73	18.61
	MJ44khz128kbps.mp3	17.00	21.58

- (1) Measured with program memory, stack, and I/O buffers in external memory and with cache configuration 32K-bytes L1P cache, 16K-bytes L1D cache, and 64K-bytes L2 cache. L1 and L2 cache invalidation done for every frame

**Table 3. Memory Statistics - Generated with Code Generation Tools Version 6.0.8**

CONFIGURATION ID	MEMORY STATISTICS <sup>(1)</sup>				TOTAL
	PROGRAM MEMORY	DATA MEMORY			
		INTERNAL	EXTERNAL	STACK	
MP3_DEC_001	57.06	0.0	34.90	2.0	93.96

- (1) All memory requirements are expressed in kilobytes (1K-byte = 1024 bytes).

**Table 4. External Data Memory Split-Up**

CONFIGURATION ID	DATA MEMORY - EXTERNAL <sup>(1)</sup>		
	SHARED		INSTANCE <sup>(2)</sup>
	CONSTANTS	SCRATCH	
MP3_DEC_001	15.79	6.75	12.36

- (1) All memory requirements are expressed in kilobytes  
(2) Does not include I/O Buffers

## Notes

- I/O buffers
  - Input buffer size = 2512 bytes
  - Output buffer size = 4608 bytes
- Total data memory for N non pre-emptive instances = Constants + Runtime Tables + Scratch + N\* (Instance + I/O buffers + Stack)
- Total data memory for N pre-emptive instances = Constants + Runtime Tables + N\* (Instance + I/O buffers + Stack + Scratch)

## Glossary

Term	Description
Constants	Elements that go into .const memory section
Scratch	Memory space that can be reused across different instances of the algorithm
Shared	Sum of Constants and Scratch
Instance	Persistent-memory that contains persistent information - allocated for each instance of the algorithm

## Acronyms

Acronym/Abbreviation	Description
CBR	Constant Bit Rate
EVM	Evaluation Module
Kbps	Kilo bits per second
KHz	Kilo Hertz
MP3	MPEG1 Layer 3
MPEG	Moving Pictures Experts Group
PCM	Pulse Code Modulation
VBR	Variable Bit Rate
XDAIS	eXpress DSP Algorithm Interface Standard
XDM	eXpressDSP Digital Media

## IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its hardware products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

TI assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using TI components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any TI patent right, copyright, mask work right, or other TI intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information published by TI regarding third-party products or services does not constitute a license from TI to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of TI information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. Reproduction of this information with alteration is an unfair and deceptive business practice. TI is not responsible or liable for such altered documentation. Information of third parties may be subject to additional restrictions.

Resale of TI products or services with statements different from or beyond the parameters stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.

TI products are not authorized for use in safety-critical applications (such as life support) where a failure of the TI product would reasonably be expected to cause severe personal injury or death, unless officers of the parties have executed an agreement specifically governing such use. Buyers represent that they have all necessary expertise in the safety and regulatory ramifications of their applications, and acknowledge and agree that they are solely responsible for all legal, regulatory and safety-related requirements concerning their products and any use of TI products in such safety-critical applications, notwithstanding any applications-related information or support that may be provided by TI. Further, Buyers must fully indemnify TI and its representatives against any damages arising out of the use of TI products in such safety-critical applications.

TI products are neither designed nor intended for use in military/aerospace applications or environments unless the TI products are specifically designated by TI as military-grade or "enhanced plastic." Only products designated by TI as military-grade meet military specifications. Buyers acknowledge and agree that any such use of TI products which TI has not designated as military-grade is solely at the Buyer's risk, and that they are solely responsible for compliance with all legal and regulatory requirements in connection with such use.

TI products are neither designed nor intended for use in automotive applications or environments unless the specific TI products are designated by TI as compliant with ISO/TS 16949 requirements. Buyers acknowledge and agree that, if they use any non-designated products in automotive applications, TI will not be responsible for any failure to meet such requirements.
