## 取引先環境評価「合格証」発行のご案内

拝啓 貴社ますますご清栄のこととお慶び申し上げます。

日頃は弊社の生産活動並びに環境保証活動にご協力を賜りまことにありがとうございます。さて、弊社は、キヤノングリーン調達基準に基づき、取引先様の環境への取り組み状況を評価させていただきました。その結果、貴社の取り組みが弊社の基準を満たしていることを確認致しましたので、「合格証」を発行いたします。今後も、環境への取り組みを継続的に進めていただきますようお願いいたします。

なお、「合格証」に関して、下記の内容についてご確認をお願い申し上げます。

敬具

### 記

1. 合格証は評価を行なった単位毎に発行します。グループ単位や事業部単位等で評価した場合は、その単位で発行します。評価単位に含まれる会社や拠点は、合格証の2ページ目に記載してあります。
2. 合格証はあくまでも貴社の環境への取り組みに対するものです。貴社より購入する物品につきましても、従来通り別途物品ごとに調査・判定を行ないます。
3. 合格証の有効期間は、合格証に記載してある期間とします。更新評価は、有効期間満了前に実施致します。
4. 今回の判定は、貴社よりご提出いただいた「自己評価票」、「現状調査票」、「実施項目一覧表兼チェックシート」、その他証拠に基づいて行ったものです。今後有効期間中であっても、ご提出いただいた資料と貴社の実態に大幅な相違が認められた場合は、合格を取り消す場合がありますので予めご了解ください。
5. 今回発行する合格証（グループ単位や事業部単位等で評価した場合、2ページも含む）に記載してある会社、拠点以外で製造した物品を、キヤノングループに納入する場合は、事前に以下までご連絡願います。

## IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its hardware products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

TI assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using TI components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any TI patent right, copyright, mask work right, or other TI intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information published by TI regarding third-party products or services does not constitute a license from TI to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of TI information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. Reproduction of this information with alteration is an unfair and deceptive business practice. TI is not responsible or liable for such altered documentation. Information of third parties may be subject to additional restrictions.

Resale of TI products or services with statements different from or beyond the parameters stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.

TI products are not authorized for use in safety-critical applications (such as life support) where a failure of the TI product would reasonably be expected to cause severe personal injury or death, unless officers of the parties have executed an agreement specifically governing such use. Buyers represent that they have all necessary expertise in the safety and regulatory ramifications of their applications, and acknowledge and agree that they are solely responsible for all legal, regulatory and safety-related requirements concerning their products and any use of TI products in such safety-critical applications, notwithstanding any applications-related information or support that may be provided by TI. Further, Buyers must fully indemnify TI and its representatives against any damages arising out of the use of TI products in such safety-critical applications.

TI products are neither designed nor intended for use in military/aerospace applications or environments unless the TI products are specifically designated by TI as military-grade or "enhanced plastic." Only products designated by TI as military-grade meet military specifications. Buyers acknowledge and agree that any such use of TI products which TI has not designated as military-grade is solely at the Buyer's risk, and that they are solely responsible for compliance with all legal and regulatory requirements in connection with such use.

TI products are neither designed nor intended for use in automotive applications or environments unless the specific TI products are designated by TI as compliant with ISO/TS 16949 requirements. Buyers acknowledge and agree that, if they use any non-designated products in automotive applications, TI will not be responsible for any failure to meet such requirements.
