

1. 세금

참가자는 Texas Instruments Innovation Challenge: Korean Booster Pack Design Contest (이하 “TI 디자인 콘테스트”) 참여로 인해 발생하는 소득세 등 제반의 세금을 본인의 책임하에 부담하여 하여야 합니다. 또한, TI Korea 는 관계 법규에 따라 상금에 대하여 원천징수 할 수 있습니다.

2. 국내외 부패방지법의 준수

참가자는 TI 디자인 콘테스트에 참여하고, TI Korea 로부터 재화 및 용역 등을 지원받음에 있어 미국의 ‘해외부패방지법(U.S. Foreign Corrupt Practices Act)’ 및 국내의 부패방지법 등이 적용될 수 있다는 점 및 위 법령들이 공직자의 직위를 이용한 이권개입 및 상업적 특혜의 목적을 위해 공직자에게 직간접적으로 금품, 선물 등을 제공하는 행위를 제한하고 있다는 점을 숙지하고 있으며 이를 준수할 것을 서약합니다.

3. 국내외 대외무역법의 준수

참가자는 TI 디자인 콘테스트에 참여하고, TI Korea 로부터 재화 및 용역 등을 지원받음에 있어 미국의 ‘대외무역법령(International Traffic in Arms Regulations 및 Export Administration Regulations 등)’ 및 국내의 대외무역법 등이 적용될 수 있다는 점을 숙지하였으며 이를 준수하겠습니다. 또한, TI Korea 로부터 지원받은 재화 및 용역 등을 TI Korea 및 관계 행정기관의 장의 허가 없이 직, 간접적으로 다른 국가, 기관, 법인 및 개인 등에 수출, 재수출, 이전, 중개 및 기타 양도 하는 행위를 하지 아니할 것을 서약합니다.

4. 지적재산권

참가자는 TI Korea 또는 그 계열사의 상표, 로고, 사업 정보, 기술, 특허 및 기타 다른 형식의 여하한 지적재산권을 TI Korea 또는 해당 계열사의 사전 서면 동의 없이 복제하거나 TI 디자인 콘테스트 외의 용도에 사용하지 않겠습니다. 또한, 참가자는 TI 디자인 콘테스트에 제출한 프로젝트 소개서, 아이디어, 보고서, 발표자료 등은 참가자 본인이 작성한 것이며, 제 3 자의 지적재산권을 위반하지 않는다는 점을 진술 및 보장 합니다.

IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, enhancements, improvements and other changes to its semiconductor products and services per JESD46, latest issue, and to discontinue any product or service per JESD48, latest issue. Buyers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All semiconductor products (also referred to herein as "components") are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its components to the specifications applicable at the time of sale, in accordance with the warranty in TI's terms and conditions of sale of semiconductor products. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by applicable law, testing of all parameters of each component is not necessarily performed.

TI assumes no liability for applications assistance or the design of Buyers' products. Buyers are responsible for their products and applications using TI components. To minimize the risks associated with Buyers' products and applications, Buyers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any patent right, copyright, mask work right, or other intellectual property right relating to any combination, machine, or process in which TI components or services are used. Information published by TI regarding third-party products or services does not constitute a license to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of significant portions of TI information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. TI is not responsible or liable for such altered documentation. Information of third parties may be subject to additional restrictions.

Resale of TI components or services with statements different from or beyond the parameters stated by TI for that component or service voids all express and any implied warranties for the associated TI component or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.

Buyer acknowledges and agrees that it is solely responsible for compliance with all legal, regulatory and safety-related requirements concerning its products, and any use of TI components in its applications, notwithstanding any applications-related information or support that may be provided by TI. Buyer represents and agrees that it has all the necessary expertise to create and implement safeguards which anticipate dangerous consequences of failures, monitor failures and their consequences, lessen the likelihood of failures that might cause harm and take appropriate remedial actions. Buyer will fully indemnify TI and its representatives against any damages arising out of the use of any TI components in safety-critical applications.

In some cases, TI components may be promoted specifically to facilitate safety-related applications. With such components, TI's goal is to help enable customers to design and create their own end-product solutions that meet applicable functional safety standards and requirements. Nonetheless, such components are subject to these terms.

No TI components are authorized for use in FDA Class III (or similar life-critical medical equipment) unless authorized officers of the parties have executed a special agreement specifically governing such use.

Only those TI components which TI has specifically designated as military grade or "enhanced plastic" are designed and intended for use in military/aerospace applications or environments. Buyer acknowledges and agrees that any military or aerospace use of TI components which have **not** been so designated is solely at the Buyer's risk, and that Buyer is solely responsible for compliance with all legal and regulatory requirements in connection with such use.

TI has specifically designated certain components as meeting ISO/TS16949 requirements, mainly for automotive use. In any case of use of non-designated products, TI will not be responsible for any failure to meet ISO/TS16949.
