Texas Instruments and/or its licensors do not warrant the accuracy or completeness of this specification or any information contained therein. Texas Instruments and/or its licensors do not warrant that this design will meet the specifications, will be suitable for your application or fit for any particular purpose, or will operate in an implementation. Texas Instruments and/or its licensors do not warrant that the design is production worthy. You should completely validate and test your design implementation to confirm the system functionality for your application.

Assembly Notes:

- **ZZ1:** This Assembly Note is for PCB labels only.
- **ZZ2:** These assemblies are ESD sensitive, ESD precautions shall be observed.
- **ZZ3:** These assemblies must be clean and free from flux and all contaminants. Use of no clean flux is not acceptable.
- **ZZ4:** These assemblies must comply with workmanship standards IPC-A-610 Class 2, unless otherwise specified.

VSW10

VSW11

VSW8

VSW7

VSW6

VSW5

VSW4

VIN27

Vin

GND

A07

A16

*LED for if FAULT

0.047uF

50V

*Small loop to BGND

*Small loop to DGND

*Small loop to PGND

*Small loop to PGND

*Can select different resistors on Digikey

*Pull SHDN to Vin to Shutdown when Vin goes down

Current Sense Low Pass Filters

*Less Pass Filter near HP Header
