

Z3-DM81X8-RPS

Available Starter Kits

- Z3-DM8168-RPS
 - Dual Channel
 - Fan
- Z3-DM8148-RPS
 - Single Channel
 - Heat Sink

Applications

- Broadcast Video
- Video Security and Surveillance
- Digital Signage and Video Kiosks
- Internet Gaming
- Industrial Applications

Performance

- 1080p60 H.264 + AAC encode or decode

Features

- High Density connectors to interface all signals
- 1 GB DDR3 and 256MB NAND Flash
- GigE, PCIe 2.0, SATA2, USB 2.0, SD/MMC, UART, I2C, SPI ports
- Supports up to 1080p60
- Multiple analog/digital video and audio I/O ports
- One Z3-DM81X8-MOD (88 x 108mm)
- One Z3-DM8168-APP (88 x 186mm)

Software Options

- Linux 2.6, mini fileys, Boot from NAND, Flash Programming Tool
- File based encoder and decoder
- Low latency RTP
- EZSDK 5.0X supported
- Multi-channel RDK available for additional license

Z3-DM36X-RPS

Applications

- Broadcast Video
- Video Security and Surveillance
- Digital Signage and Video Kiosks
- Internet Gaming
- Networked Multimedia Appliance
- Industrial Applications

Performance

- Up to 1080p30 H.264 + AAC encode or decode
- Up to 1080p30 MPEG-4 SP/ASP + AAC encode or decode
- Up to 1080i30 MPEG-2 + MPEG audio decode
- Up to 1080i30 MJPEG + audio file decode
- Z3-DM365-RPS Limited to 720p30 H.264

Features

- Component input/output supports up to 1080i
- Composite input/output support NTSC and PAL
- HDMI 1.3 output
- SD and microSD card, Ethernet interface, USB type A interface
- Compact Module 44 mm x 67 mm

Software Options

- UBL, Linux 2.6, mini fileys, Boot from NAND, Flash Programming Tool
- AVI file based encoder and decoder
- Low latency RTP based encode and stream
- Low latency RTP decode from stream

CATALOG

1080p60 Z3-DM8169-VI-RPS**Performance**

- 1080p60 H.264 + AAC encode or decode
- Supports MPEG-2 +AAC encode or decode
- Supports Broadcast Quality TruView™ H.264 encoder
- Outputs RTP or MPEG-2 TS

**Features**

- Supports up to 1080p60 resolution
- 1 GB DDR3 and 256MB NAND Flash
- GigE, PCIe 2.0, SATA2, USB 2.0, SD/MMC, UART, I2C, SPI ports
- 3G SDI In/Out, ASI In/Out
- One Z3-DM8169-MOD-2X (88 x 108mm)
- One Z3-DM8168-APP-3X (90 x 218mm)

Software Options

- Linux 2.6, mini filesystems, Boot from NAND, Flash Programming Tool
- Low latency RTP and MPEG-2 TS
- EZSDK 5.0X
- Multi-channel RDK available for additional license
- Web Server Interface

1080i60 Z3-DM8169-4CH-RPS**Performance**

- Up to H.264 1080i + AAC encode or decode
- Supports MPEG-2 +AAC encode or decode
- Outputs RTP or MPEG-2 TS

**Features**

- Supports up to 1080i resolution
- 4K HDMI Output
- 1 GB DDR3 and 256MB NAND Flash
- GigE, SATA2, USB 2.0
- HD-SDI In, HDMI In/Out, ASI In/Out, YPbPr and Composite Out
- One Z3-DM8169-MOD-3X (68 x 108mm)
- One Z3-DM8168-APP-5X (142 x 257mm)

Software Options

- Linux 2.6.3x, u-boot, Boot from NAND, tool chain, Flash Programming Tool
- Multi-channel RDK framework
- Low latency RTP and MPEG-2 TS
- Web Server Interface

1080i60 Z3-DM368-VI-RPS**Performance**

- H.264 High Profile encode up to 1080p at 30fps
- Supports H.264 (MPEG-4 AVC) BP, MP, HP and MPEG-2
- Supports AAC stereo audio
- Outputs RTP or MPEG-2 TS

**Features**

- HD resolutions up to 1920x1080, including 1080i, 1080p30 and 720p
- SD encoding for ISDB-T, DVB-H, ...etc.
- HD-SDI In/Out, ASI In/Out, non-HDCP HDMI In, Component In, Composite In, RGB IN
- Output Interfaces: Ethernet and ASI
- Ethernet, USB, SD Card, Serial
- One Z3-DM368-MOD (44 x 67mm)
- One Z3-DM368-APP (100 x 130mm)

Software Options

- Linux 2.6, mini filesystems, Boot from NAND, Flash Programming Tool
- Low latency RTP and MPEG-2 TS
- Web Server Interface

1080i60 Z3-DM368-SDI-RPS**Performance**

- H.264 High Profile encode and decode from QCIF up to 1080p/i at 30fps
- Supports H.264, and MPEG-2
- Supports AAC stereo audio
- Outputs RTP or MPEG-2 TS

**Features**

- HD resolutions up to 1920x1080, including 1080i, 1080p30 and 720p
- SD encoding for ISDB-T, DVB-H, ...etc.
- Video Inputs: HD-SDI, Composite
- Output Interfaces: Ethernet and ASI
- Ethernet, USB, SD Card, Serial
- One Z3-DM368-MOD (44 x 67mm)
- One Z3-DM368-APP (178 x 123mm)

Software Options

- UBL, Linux 2.6X, u-boot, root filesystem, Boot from NAND, tool chain, Flash Programming Tool
- Low latency RTP and MPEG-2 TS
- Web Server Interface

Z3-DM8168-PCI-RPS**Performance**

- Up to 1080p60 H.264 + AAC encode or decode

Features

- High Density connectors to interface all signals
- 1 GB DDR3 and 256MB NAND Flash
- GigE, PCIe 2.0, SATA2, USB 2.0, SD/MMC, UART, I2C, SPI ports
- HDMI 1.4a at up to 1080p60, Analog YPbPr and RGB In
- HDMI video output at up to 1080p60
- One Z3-DM8168-MOD-34-EP (68 x 108mm)
- One Z3-DM8168-APP-22 (89 x 168mm)

**Software Options**

- Linux 2.6, mini filesystems, Boot from NAND, Flash Programming Tool
- Low latency RTP and MPEG-2 TS
- EZSDK 5.0X
- Multi-channel RDK available for additional license

Z3-DM8168-DVR-RPS**Performance**

- Simultaneous 16 channel D1 composite video recording + simultaneous decoding

**Features**

- Up to 16 channel composite inputs, 16GPIO's
- GigE, Dual USB 2.0, SATA2, Dual HDMI Output, Serial
- DB-9 Serial Port Communications
- One Z3-DM8168-MOD-24 (88 x 108mm)
- One Z3-DM8168-APP-1X (100 x 190mm)

Software Options

- Linux 2.6, mini filesystems, Boot from NAND, Flash Programming Tool
- File based encoder and decoder
- RDK framework

**Z3-DM8107-RPS****Applications**

- Broadcast Video Encoding/Decoding
- Video Security and Surveillance
- Medical Video
- Industrial Video
- Low Power 1080p60 Encoder

Performance

- H.264 video endcode, from QCIF to 1080p/i at up to 60 fps; AAC or PCM audio
- H.264 video decode from QCIF to 1080p/i at up to 60 fps with audio

Features

- 1 GB DDR3 and 256MB NAND Flash
- GigE, SATA2, serial, HDMI/Component/Composite output, USB 2.0
- Supports up to 1080p60
- HDMI or Component input with audio
- 240 pin DIMM interface
- One Z3-DM8107-MOD (82 x 43mm)
- One Z3-DM8107-APP-0x (108 x 88mm)
- One Z3-DM8168-APP-0x (186 x 88mm), SD/MMC card socket

Software Options

- Linux 2.6, u-boot, root file-system, NAND boot, tool chain, Flash Programming Tool
- Low latency RTP or MPEG-2 TS
- RDK framework

IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, enhancements, improvements and other changes to its semiconductor products and services per JESD46, latest issue, and to discontinue any product or service per JESD48, latest issue. Buyers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All semiconductor products (also referred to herein as "components") are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its components to the specifications applicable at the time of sale, in accordance with the warranty in TI's terms and conditions of sale of semiconductor products. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by applicable law, testing of all parameters of each component is not necessarily performed.

TI assumes no liability for applications assistance or the design of Buyers' products. Buyers are responsible for their products and applications using TI components. To minimize the risks associated with Buyers' products and applications, Buyers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any patent right, copyright, mask work right, or other intellectual property right relating to any combination, machine, or process in which TI components or services are used. Information published by TI regarding third-party products or services does not constitute a license to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of significant portions of TI information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. TI is not responsible or liable for such altered documentation. Information of third parties may be subject to additional restrictions.

Resale of TI components or services with statements different from or beyond the parameters stated by TI for that component or service voids all express and any implied warranties for the associated TI component or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.

Buyer acknowledges and agrees that it is solely responsible for compliance with all legal, regulatory and safety-related requirements concerning its products, and any use of TI components in its applications, notwithstanding any applications-related information or support that may be provided by TI. Buyer represents and agrees that it has all the necessary expertise to create and implement safeguards which anticipate dangerous consequences of failures, monitor failures and their consequences, lessen the likelihood of failures that might cause harm and take appropriate remedial actions. Buyer will fully indemnify TI and its representatives against any damages arising out of the use of any TI components in safety-critical applications.

In some cases, TI components may be promoted specifically to facilitate safety-related applications. With such components, TI's goal is to help enable customers to design and create their own end-product solutions that meet applicable functional safety standards and requirements. Nonetheless, such components are subject to these terms.

No TI components are authorized for use in FDA Class III (or similar life-critical medical equipment) unless authorized officers of the parties have executed a special agreement specifically governing such use.

Only those TI components which TI has specifically designated as military grade or "enhanced plastic" are designed and intended for use in military/aerospace applications or environments. Buyer acknowledges and agrees that any military or aerospace use of TI components which have **not** been so designated is solely at the Buyer's risk, and that Buyer is solely responsible for compliance with all legal and regulatory requirements in connection with such use.

TI has specifically designated certain components as meeting ISO/TS16949 requirements, mainly for automotive use. In any case of use of non-designated products, TI will not be responsible for any failure to meet ISO/TS16949.
