

## LFAB2 BY THE NUMBERS

# TI's second 300-mm wafer fab in Lehi, Utah

**\$11 billion**  
investment

**Largest**  
investment in  
Utah history

**800**  
new TI jobs +  
thousands of indirect jobs

Will be powered by  
**100%** renewable  
electricity

Designed to meet  
**LEED Gold** version 4

Will recycle water at nearly  
**2x** the rate of  
existing fab

**Tens of millions**  
of chips will be manufactured daily in Lehi

Production as early as **2026**

**\$9 million** investment in the  
Alpine School District

Will create Utah's first  
district-wide STEM program for **K-12** students

We're building the next era of  
semiconductor manufacturing  
in Lehi, Utah
