

产品认证证书

证书编号: CQC16001155011

申请人名称及地址

Texas Instruments Inc
Texas Instruments Inc, 12500 T I Blvd., MS8709, Dallas TX 75243, 美国

制造商名称及地址

Texas Instruments Inc
Texas Instruments Inc, 12500 T I Blvd., MS8709, Dallas TX 75243, 美国

生产企业名称及地址

德州仪器工业股份有限公司中正厂 (V019639)
台湾新北市中和区中正路866号3、4、5 楼及866号之3号, 866号之11号

产品名称和系列、规格、型号

数字隔离器

见附件

产品标准和技术要求

GB4943.1-2011

认证模式

产品型式试验+初次工厂检查+获证后监督

上述产品符合 CQC11-471543-2015 认证规则的要求, 特发此证。

发证日期: 2016年10月28日

证书有效期内本证书的有效性依据发证机构的定期监督获得保持。

主任: _____

PRODUCT CERTIFICATE

No.: CQC16001155011

NAME AND ADDRESS OF THE APPLICANT

Texas Instruments Inc
Texas Instruments Inc, 12500 T I Blvd., MS8709, Dallas TX 75243, USA

NAME AND ADDRESS OF THE MANUFACTURER

Texas Instruments Inc
Texas Instruments Inc, 12500 T I Blvd., MS8709, Dallas TX 75243, USA

NAME AND ADDRESS OF THE FACTORY

Texas Instruments Taiwan Ltd.(V019639)
No.866-3, No.866-11 and 3F., 4F., 5F., No.866, Chung cheng Rd., Chung Ho Dist., New Taipei City,
Taiwan, P.R.O.C.

NAME, MODEL AND SPECIFICATION

Digital Isolator
See Appendix

THE STANDARDS AND TECHNICAL REQUIREMENTS FOR THE PRODUCTS

GB4943.1-2011

CERTIFICATION MODEL

Type Testing of Product + Initial Factory Inspection + Follow up Factory Inspection

This is to certify that the above mentioned products have met the requirements of certification rules CQC11-471543-2015 .

Date of issue: Oct.28,2016

Validity of this certificate is subject to positive result of the regular follow up inspection by issuing certification body until the expiry date.

President:

Wang Kejiao

IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, enhancements, improvements and other changes to its semiconductor products and services per JESD46, latest issue, and to discontinue any product or service per JESD48, latest issue. Buyers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All semiconductor products (also referred to herein as "components") are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its components to the specifications applicable at the time of sale, in accordance with the warranty in TI's terms and conditions of sale of semiconductor products. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by applicable law, testing of all parameters of each component is not necessarily performed.

TI assumes no liability for applications assistance or the design of Buyers' products. Buyers are responsible for their products and applications using TI components. To minimize the risks associated with Buyers' products and applications, Buyers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any patent right, copyright, mask work right, or other intellectual property right relating to any combination, machine, or process in which TI components or services are used. Information published by TI regarding third-party products or services does not constitute a license to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of significant portions of TI information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. TI is not responsible or liable for such altered documentation. Information of third parties may be subject to additional restrictions.

Resale of TI components or services with statements different from or beyond the parameters stated by TI for that component or service voids all express and any implied warranties for the associated TI component or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.

Buyer acknowledges and agrees that it is solely responsible for compliance with all legal, regulatory and safety-related requirements concerning its products, and any use of TI components in its applications, notwithstanding any applications-related information or support that may be provided by TI. Buyer represents and agrees that it has all the necessary expertise to create and implement safeguards which anticipate dangerous consequences of failures, monitor failures and their consequences, lessen the likelihood of failures that might cause harm and take appropriate remedial actions. Buyer will fully indemnify TI and its representatives against any damages arising out of the use of any TI components in safety-critical applications.

In some cases, TI components may be promoted specifically to facilitate safety-related applications. With such components, TI's goal is to help enable customers to design and create their own end-product solutions that meet applicable functional safety standards and requirements. Nonetheless, such components are subject to these terms.

No TI components are authorized for use in FDA Class III (or similar life-critical medical equipment) unless authorized officers of the parties have executed a special agreement specifically governing such use.

Only those TI components which TI has specifically designated as military grade or "enhanced plastic" are designed and intended for use in military/aerospace applications or environments. Buyer acknowledges and agrees that any military or aerospace use of TI components which have **not** been so designated is solely at the Buyer's risk, and that Buyer is solely responsible for compliance with all legal and regulatory requirements in connection with such use.

TI has specifically designated certain components as meeting ISO/TS16949 requirements, mainly for automotive use. In any case of use of non-designated products, TI will not be responsible for any failure to meet ISO/TS16949.
