

**TI Connectivity Solutions  
Developer Program Application**

To apply for membership in the TI Connectivity Solutions Developer Program, please fill out the following information as completely as possible. A TI Developer Program Account Manager with more information will contact you.

This program is reserved for consultants and developers providing TI Connectivity-related products and services. Technical support, product questions or requests for pricing should be forwarded to the TI Product Information Center.

If the information requested below does not apply to your business, please enter "N/A."

Date of Application: \_\_\_\_\_

Company Name: \_\_\_\_\_

Company Division Name: \_\_\_\_\_

Company Address1: \_\_\_\_\_

Company Address2: \_\_\_\_\_

Company City: \_\_\_\_\_

Company State/Region: \_\_\_\_\_

Company Zip/Postal Code: \_\_\_\_\_

Company Country: \_\_\_\_\_

Number of Employees: \_\_\_\_\_

Email: \_\_\_\_\_

Telephone: \_\_\_\_\_

Fax: \_\_\_\_\_

Web URL: \_\_\_\_\_

  

Your Name: \_\_\_\_\_

Your Title: \_\_\_\_\_

Email: \_\_\_\_\_

Telephone: \_\_\_\_\_

Fax: \_\_\_\_\_

**Are you currently developing or will you have developed within sixty days products or services for TI Connectivity devices?**

- Yes
- No

**What is the type of product or service do you or will you provide?**

- Hardware Products
- Software Products
- Consulting Services

**Briefly describe your product or service (i.e., evaluation board, software plug-in, design consulting etc.):**

---

---

---

---

---

---

---

---

**For what TI Connectivity device family do you offer your product or service (check all that apply)**

Generation	Generic Part Numbers

For each tool or solution you want listed as part of the Developer Network, please provide the following information:

Tool Name	
Part Number	
O/S	
Generation (see list above)	
Price / Price Range	
Description	
TI Devices	
Tool Category	
Tool Type	
URL	

Tool Name	
Part Number	
O/S	
Generation (see list above)	
Price / Price Range	
Description	
TI Devices	
Tool Category	
Tool Type	
URL	

**IMPORTANT NOTE: Texas Instruments reserves the right to change or end the program, and/or disengage from any Network member, at any time and at TI's sole discretion.**

**Part II (Required): Listing in TI Development Tool Tables**

The Connectivity Developer Network site provides tables of all network member products and the TI product families they are associated with. To see these pages, go to [www.ti.com/devnet](http://www.ti.com/devnet) and click on the links for Hardware, Software, and Consulting tables. Then please fill in the information below for each connectivity-related product/service you offer.

Company Name	Product/Service Type <sup>1</sup>	Product Name <sup>2</sup>	Associated TI Family <sup>3</sup>

1. Options are **Hardware, Software, and Consulting Services**
2. If Consulting Services, you can leave blank
3. Options are: 1394 Integrated Devices; 1394 Link Layer Controllers; 1394 Physical Layer Controllers, USB Hub Controllers, USB Peripherals, PCI CardBus, PCI Bridges, and UARTs

**Part III (Optional):**

Many connectivity developer network companies also choose to provide more detailed information about their Connectivity product offerings. TI will use this to create a separate company-specific page for you. We encourage you to provide information for these pages. You can have as much space as you need. Simply attach the information you would like to appear.

## IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its hardware products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

TI assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using TI components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any TI patent right, copyright, mask work right, or other TI intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information published by TI regarding third-party products or services does not constitute a license from TI to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. Reproduction of this information with alteration is an unfair and deceptive business practice. TI is not responsible or liable for such altered documentation.

Resale of TI products or services with statements different from or beyond the parameters stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.
