

David Phelan, reporter from the renowned UK daily newspaper, The Independent, featured the 10 best digital radios on May 13, 2004. The Intempo Digital PG-01 and the Roberts Gemini RD5, both based on TI DAB receiver technology, were respectively awarded Best Budget Buy and Best Buy by the journalist.

## THE TEN BEST Digital radios

### Roberts Gemini RD5

£150

Roberts radios are almost universally excellent - like this one, a portable mains- or battery-operated machine with a loudspeaker and a tweeter for extra clarity. It's finished in a fetching choice of matt silver, or matt bronze with walnut-effect side panels, and you can listen to up to 55 digital stations. Plus, there's an FM tuner for when the digital signal can't reach you.

BUY**

### Intempo Digital PG-01

£120

The built-in stereo speakers make the most of those digital broadcasts that *are* in stereo (although they aren't all, by any means). Its beech veneer casing is pleasing, and the subtle blue LCD screen shows programme information - with digital broadcasting, this can be as detailed as

BUY**

which track is playing or what the news headlines are. This model also has an FM tuner, alarm clock and sleep mode. 0161-924 0300; [www.intempo-digital.co.uk](http://www.intempo-digital.co.uk)

## IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its hardware products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

TI assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using TI components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any TI patent right, copyright, mask work right, or other TI intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information published by TI regarding third-party products or services does not constitute a license from TI to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. Reproduction of this information with alteration is an unfair and deceptive business practice. TI is not responsible or liable for such altered documentation.

Resale of TI products or services with statements different from or beyond the parameters stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.
