Changes to Analog Wire

Mac Skinner

Thank you for following our company's Analog Wire blog. This week, we are refreshing the look and structure of the technical blogs on the TI E2E site to simplify how to find and select the relevant content for your interests.

- Moving forward, you will find the content under the category of “technical articles” rather than “blogs.”
- In addition, the name will change from *Analog Wire* to *Analog* and you will see a new avatar using the image below.

What is staying the same? You will continue to find quality content that shares engineering expertise, industry insight and product knowledge. And existing content is still searchable on the TI E2E site and TI.com.

We invite you to continue following and watch for the next article, coming soon!

Thank you.
