

MELAKA BY THE NUMBERS

TI's second assembly and test fab in Melaka, Malaysia

10+ million
chips assembled
and tested daily

900,000+
square feet of
manufacturing space

Up to **500**
new jobs when
fully operational

Up to
MYR 5 billion
investment

Designed to meet
LEED Gold
certification

**Advanced factory
automation**
to optimize assembly and test processes

Advanced equipment

reduces waste, water and energy consumption per chip

6x the capacity to transform
processed wafers into finished chips

Investment in Melaka

advances TI's plans to bring 90% of its assembly
and test operations internal by 2030

We're building the next era of
semiconductor manufacturing
in Melaka, Malaysia
