

Independent Limited Assurance Report

ERM Certification & Verification Services Incorporated ("ERM CVS") was engaged by Texas Instruments Incorporated ("Texas Instruments") to provide limited assurance in relation to the Selected Information set out below and presented in the Texas Instruments 2024 Corporate Citizenship Report (the "Report").

ENGAGEMENT SUMMARY

Scope of our assurance engagement	<p>Whether the following Selected Information for 2024, as indicated, are fairly presented in the Report, in all material respects, in accordance with the reporting criteria.</p> <p>Our assurance engagement does not extend to information in respect of earlier periods or to any other information included in the Report.</p>
Selected Information	<ul style="list-style-type: none">• Total Scope 1 GHG emissions [metric tonnes CO₂e]• Total Scope 2 GHG emissions (location-based) [metric tonnes CO₂e]• Total Scope 2 GHG emissions (market-based) [metric tonnes CO₂e]• Scope 3 GHG Emissions by category [metric tonnes CO₂e]:<ul style="list-style-type: none">○ Category 1: Purchased Goods and Services○ Category 2: Capital Goods○ Category 3: Fuel- and Energy Related Activities○ Category 4: Upstream Transportation and Distribution○ Category 5: Waste Generated in Operations○ Category 6: Business Travel○ Category 7: Employee Commuting○ Category 8: Upstream Leased Assets○ Category 9: Downstream Transportation and Distribution○ Category 10: Processing of Sold Products○ Category 13: Downstream Leased Assets• Total Energy Consumption [MWH]• Total Energy Renewable Energy [MWH]
Reporting period	1 st January 2024 to 31 st December 2024
Reporting criteria	<ul style="list-style-type: none">• Texas Instruments' Basis of Reporting• The GHG Protocol Corporate Accounting and Reporting Standard (WBCSD/WRI Revised Edition 2015) for Scope 1 and Scope 2 GHG emissions• GHG Protocol Scope 2 Guidance (An amendment to the GHG Protocol)• The Corporate Value Chain (Scope 3) Accounting and Reporting Standard (WBCSD/WRI 2011) for Scope 3 GHG emissions• United States Environmental Protection Agency (US EPA), Greenhouse Gas Reporting Program (GHGRP), Subpart I –Electronics Manufacturing
Assurance standard and level of assurance	<p>We performed a limited assurance engagement in accordance with the International Standard on Assurance Engagements ISAE 3000 (Revised) 'Assurance Engagements other than Audits or Reviews of Historical Financial Information.'</p> <p>The procedures performed in a limited assurance engagement vary in nature and timing and are less in extent than for a reasonable assurance engagement, and consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.</p>

Respective responsibilities	<p>Texas Instruments is responsible for preparing the Report and for the collection and presentation of the information within it, and for the designing, implementing and maintaining of internal controls relevant to the preparation and presentation of the Selected Information.</p> <p>ERM CVS’ responsibility is to provide a conclusion to Texas Instruments on the agreed assurance scope based on our engagement terms with Texas Instruments, the assurance activities performed and exercising our professional judgement.</p>
------------------------------------	--

OUR CONCLUSION

Based on our activities, as described below, nothing has come to our attention to indicate that the Selected Information for 2024 is not fairly presented in the Report, in all material respects, in accordance with the reporting criteria.

EMPHASIS OF MATTER

Without affecting our conclusion, we draw attention to the explanatory notes provided by Texas Instruments relating to the data on page 11 of the Report and on page 44 in the Appendices section of the Report, in particular the limitations relating to the exclusion of Fluorinated Heat Transfer Fluids from Scope 1 GHG emissions reported.

OUR ASSURANCE ACTIVITIES

Considering the level of assurance and our assessment of the risk of material misstatement of the Selected Information a multi-disciplinary team of sustainability and assurance specialists performed a range of procedures that included, but was not restricted to, the following:

- Evaluating the appropriateness of the reporting criteria for the Selected Information;
- Performing an analysis of the external environment, including a media search, to identify sustainability risks and issues in the reporting period that may be relevant to the assurance scope;
- Interviewing management representatives responsible for managing the Selected Information;
- Interviewing relevant staff to understand and evaluate the management systems and processes (including internal review and control processes) used for collecting and reporting the Selected Information;
- Reviewing of a sample of qualitative and quantitative evidence supporting the Selected Information at a corporate level;
- Performing an analytical review of the year-end data submitted by all locations included in the consolidated 2024 group data for the Selected Information, which included testing the completeness and mathematical accuracy of conversions and calculations, and consolidation in line with the stated reporting boundary;
- Conducting site visits to two Texas Instruments facilities in the Utah (USA) and Freising (Germany) to review source data and local reporting systems and controls;
- Evaluating the conversion and emission factors and assumptions used; and
- Reviewing the presentation of information relevant to the assurance scope in the Report to ensure consistency with our findings.

THE LIMITATIONS OF OUR ENGAGEMENT

The reliability of the Selected Information is subject to inherent uncertainties, given the available methods for determining, calculating or estimating the underlying information. It is important to understand our assurance conclusions in this context. Our work was undertaken at Texas Instruments' head office in Dallas, Texas.

OUR INDEPENDENCE, INTEGRITY AND QUALITY CONTROL

ERM CVS is an independent certification and verification body accredited by UKAS to ISO 17021:2015. Accordingly, we maintain a comprehensive system of quality control, including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements. Our quality management system is at least as demanding as the relevant sections of ISQM-1 and ISQM-2 (2022).

ERM CVS applies a Code of Conduct and related policies to ensure that its employees maintain integrity, objectivity, professional competence and high ethical standards in their work. Our processes are designed and implemented to ensure that the work we undertake is objective, impartial and free from bias and conflict of interest. Our certified management system covers independence and ethical requirements that are at least as demanding as the relevant sections of the IESBA Code relating to assurance engagements.

ERM CVS has extensive experience in conducting assurance on environmental, social, ethical and health and safety information, systems and processes, and provides no consultancy related services to Texas Instruments in any respect.

Notice regarding forward-looking statements

This communication includes forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally can be identified by phrases such as TI or its management “believes,” “expects,” “anticipates,” “foresees,” “forecasts,” “estimates” or other words or phrases of similar import. Similarly, statements herein that describe TI’s business strategy, outlook, objectives, plans, intentions or goals are forward-looking statements. All such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those in forward-looking statements. For a more detailed discussion of these factors, see the risk factors discussion in the first quarter of 2025 Form 10-Q, filed with the SEC. The forward-looking statements included in this communication are made only as of the date of this communication. We undertake no obligation to update the forward-looking statements to reflect subsequent events or circumstances.
